SOLDIER TRIES A NOVEL STUNT.

Cadiz, Ky., February 13.—One of the cleverest "stunts" that has been "pulled off" in this section for a long time has just been reported in connection with one of our Trigg county soldier boys now at Camp Zachary Taylor.

His home is about fifteen miles south of here, and he has some five or six brothers and sisters living in this county. Recently he wrote each one of them separately, telling them that he would perhaps be ordered to France in the near future and would like to come home to see them all before he left, but that he was short of funds and wished they would send him \$10 to pay his expenses home. Only one of his several brothers and sisters paid attention to his letter. This one brother did not have the money, but immediately upon receipt of his brother's letter went to a friend and borrowed \$10 and sent it to him promptly at Camp Taylor. In a few days he received a reply from his brother, in which the \$10 was returned, and he was informed by his soldier brother that he did not need the money, but thanked him for his kindness, informing him that he was having his life insured for \$10,000 and had simply used this means of ascertaining which one of his brothers and sisters really thought the most of him, that he might make them the beneficiary of said policy, and that, as he was the only one that had answered his letter and had granted his request, he was therefore naming him as the beneficiary of said policy.
